1 BACKGROUND

1.1 SPROMAN Lettering font

PLEASE NOTE: THIS IS A FREE FONT. IT CANNOT BE SOLD.

This font is based on data personally collected from the Internet and hobby magazines related to Southern Pacific, by examining pictures of diesels and steam. It is, at best, an approximation of what is seen and does not come from any long term "foaming" of SP myself. Things here could be very wrong or slightly off… so remember… this is a living item, not cast in stone. Feedback is welcome.

2 USAGE

2.1 Installation

The file is distributed as part of a ZIP file that includes this document as well as the font itself and other related documentation.

The files need to be UNZIPPED from the distribution file into a temporary work area, like **C:\TEMP.** *(I'll assume that you used c:\temp from here on…)*
 Now you can install the font from the windows **CONTROL PANEL**. Your system may be different, but in many cases you would select **START** → **Settings** → **Control Panel** → **FONTS** → **FILE [pull down]** → **INSTALL NEW FONT**

From here you would select your new file **C:\temp\SPROMAN.ttf**

That's it, the font is installed.

As with all other TTF fonts on your system, the "**SPROMAN.ttf**" file enclosed within the ZIP file belongs in the **FONTS** folder of your windows operating system. This is the only way this file would be useful.
